DESIGN

The latest Land Rover LR2. Its purposeful stance is sporty and sophisticated. Land Rover LR2 is ready and prepared to tackle life's challenges. Its exterior, with its modern, contemporary looks and sleek lines, has an immediate sense of purpose and is more distinctive than ever.

Land Rover LR2 is even more honed and focused, even more charismatic. That is because Land Rover LR2 has new headlamps and rear lights, a revised grille and side vents, plus the availability of two striking new colors, Mauritius Blue and Havana.

Smart enough for town, tough enough for the country. The style and engineering of Land Rover LR2 deliver refinement and performance. It's smart and strong, compact and spacious.

Vehicle exterior color shown in Havana with 19 inch ten-spoke alloy wheels in Sparkle finish.

ALL CONDITIONS

Supreme capability off-road, exceptional comfort on-road. Land Rover LR2 has what it takes because it is able to draw on over 60 years' worth of Land Rover expertise. This truly multi-talented vehicle delivers the confidence to take on both the unexpected demands of rural locations and the rigours of urban motoring. Whether on dirt track or ice, Land Rover's renowned Terrain Response® system maximizes traction through the vehicle's electronic management systems and traction aids. Rough ground off-road or adverse weather conditions on-road; it's always reassuring to know you're driving Land Rover LR2.

These systems are not a substitute for driving safely with due care and attention and will not feature under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving.
Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

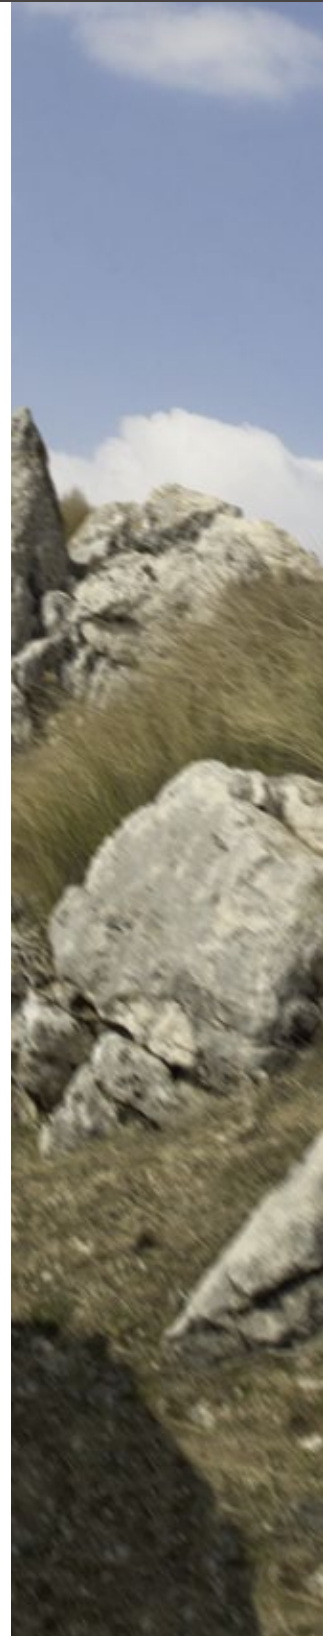

Land Rover LR2 deals with the rough as easily as it delivers the smooth. That's because it's ready to take on tough terrains and conditions with long-established Land Rover qualities such as excellent entry/departure angles and outstanding ground clearance as well as taking full advantage of the most modern off-road driving aids. The Terrain Response system allows the driver to select one of four settings appropriate to the conditions – Grass/Gravel/Snow, for example, and adjusts the vehicle's powertrain and traction control systems to maintain momentum.

Hill Descent Control is an aid that helps with the safe descent of steep slopes. Land Rover's Gradient Release Control helps ensure smooth hill starts whether ascending or descending.

Vehicle exterior color shown in Havana with 19 inch ten-spoke alloy wheels in Sparkle finish.
These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgement in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Land Rover LR2 brings together cutting-edge technology, robust design and decades of Land Rover experience to handle inhospitable conditions. Storm becomes shower, gale becomes breeze. Land Rover LR2 is built not only for demanding terrain, but demanding weather conditions too.

The Terrain Response system is as useful on-road as it is off-road. It adds to the on-road capabilities of Land Rover LR2, allowing you to maximize your vehicle's potential to go further and see more – all with great control.

PERFORMANCE

Power, performance and torque. Land Rover LR2 has been updated with Land Rover's state-of-the-art 2.0 liter cylinder turbocharged engine.

This new 2.0 liter engine utilizes the latest technology to provide performance greater than that of the 3.2 liter engine it replaces, lowering fuel consumption and CO₂ emissions.

INTERIOR

COMMAND DRIVING POSITION

Whether you're on the highway, maneuvering into a tight parking space or taking on a pot-holed track, Land Rover LR2 is designed to put the driver in control. Land Rover's legendary Command Driving Position is an intrinsic part of the vehicle's design. It brings a sense of control over the road and helps with the maneuvering and parking in urban environments. The driver's seat is also optimized for comfort and support with armrests and six-way adjustment as standard. The steering wheel can be adjusted for recline and reach ensuring that you can set the position that is right for you.

INTEGRATED DESIGN

Inside, Land Rover LR2 makes you feel special. That's because everything is designed to enrich the driver and passenger experience. It's the place to relax and forget the stresses of the day. Every control, every surface is carefully crafted to give a luxurious interior with the quality and tactile ambience found on other, larger Land Rover vehicles with a range of trim options that can be tailored to suit the most sophisticated personal tastes as well as practical requirements.

STADIUM SEATING

First class accommodation for everyone. And every thing. Inside Land Rover LR2, no one travels second class.

Driver and passengers alike enjoy generous leg, head and shoulder room. And with Stadium Seating putting rear passengers 2 inches (50mm) higher than those in front, everyone can enjoy the view.

Interior images show optional HSE LUX Pack in Ivory Windsor leather, optional navigation system and optional Grand Black Laquer finish.

LOADSPACE

From comfortable seating to cavernous stowage, the versatile rear loadspace of Land Rover LR2 adapts to your needs. Easily adjustable, the space can be expanded by folding one side of the 60:40 split rear seats to provide a flat load floor. Or, with both seats folded, a practical loadspace area is available. With 39.3 inches (one meter) between the wheel arches there's room for the most awkward loads.

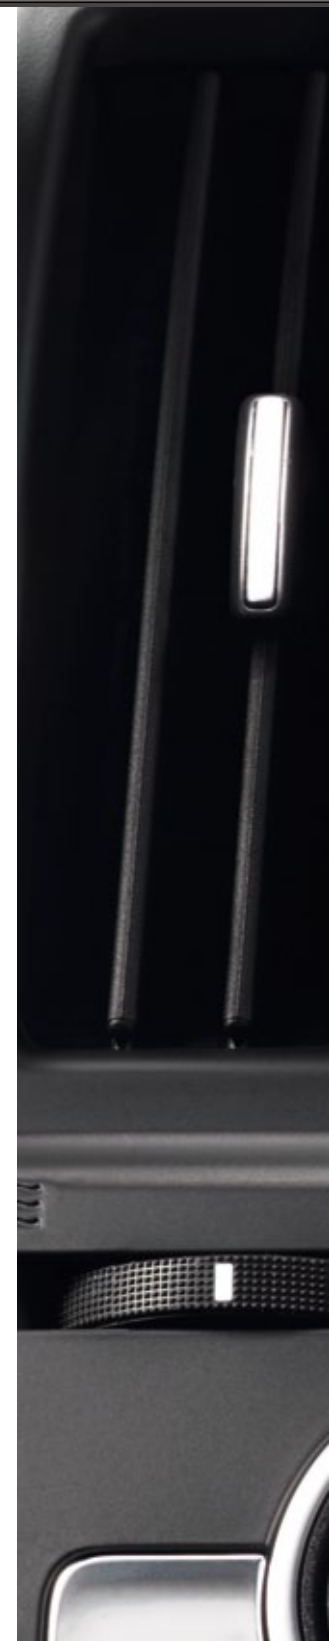

INFOTAINMENT

The instrument pack, with its contemporary graphics and standard seven inch color Touch-screen, provides key information at a glance, while joystick controls on the steering wheel are at your fingertips to operate it. Models with optional navigation also feature voice control using spoken commands to operate the infotainment system.

Intuitive menus makes navigation easy and along with GPS information, the audio system and hands-free telephone are all controlled from this central system.

Information Provided by:
PLEASE NOTE: The Voice System has been designed to recognize a number of languages. However, Land Rover cannot guarantee that the system will be compatible with every accent group within those languages. Please speak to your Land Rover Retailer about testing the Voice System for compatibility with a particular accent group.

SOUND

Land Rover LR2 takes you that step closer to the artist's original performance. There are two in-car entertainment systems to choose from, including an optional premium Meridian™ System with 17 speakers and an astonishing 825W of power. This system also features a Virtual CD player which allows as many as ten uncompressed albums to be stored on the hard drive*. Every Land Rover LR2 comes with MP3 and USB connectivity, Bluetooth® streaming and phone connection as standard.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license.

*Virtual CD player functionality is only available when optional Hard Disk Drive Navigation system is taken. Please speak to your Land Rover Retailer for more information.

AND VISION

Land Rover LR2 is available with an optional† rear view camera which displays images from behind the vehicle on the center console screen. The system's intuitive interface aides maneuvering and parking. What's more, the rear view camera also features Hitch Assist which helps line up the tow ball, when fitted, with a trailer.

These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc, Driver should not assume that these systems will correct errors of judgement in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

†Additional charges apply. Please contact your authorized Land Rover Retailer for details.

SAFETY

A host of technology and sophisticated primary safety systems are packed into Land Rover LR2.

A strong monocoque body and inner safety cell, protected by meticulously engineered front and rear crumple zones, are designed to absorb energy on impact. While high-strength steel is used in the construction of the body, dual-phase steel, which requires special pressing because of its resilience, is found in key components such as the front windshield pillars and lower side sills. The result is a weight efficient safety cell.

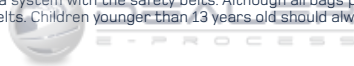

Advanced stability control systems which can reduce engine torque and apply specific braking forces to each individual wheel, provide both stability and capability where you need it. So whatever obstacles might come your way, Land Rover LR2 helps give you increased control.

Large disc brakes on every wheel help provide outstanding stopping power and are designed to adapt continuously and instantaneously to conditions.

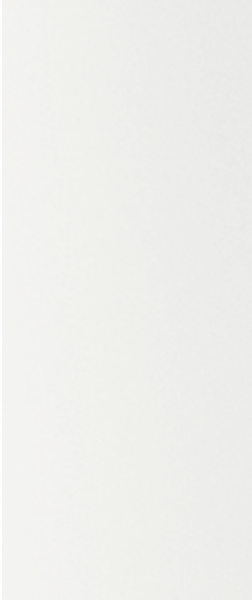

Vehicle exterior color shown in Ipanema Sand (above).

Vehicle exterior colors shown in Santorini Black, Drkney Grey and Firenze Red (right).

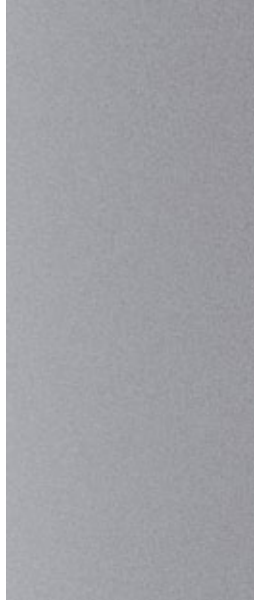

These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgement in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Please remember that the safety belts in a Land Rover vehicle constitute the primary protection system for driver and passengers in collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

TECHNICAL FEATURES AND SPECIFICATION

STEERING WHEEL CONTROLS. Steering wheel mounted controls at your fingertips for ultimate ease of use. The intuitive technologies available cover cruise control, the audio system and hands-free telephone operation.

LR2 comes standard with Bluetooth® connectivity. You'll be able to make and take telephone calls via the vehicle's audio system (subject to telephone compatibility).

Optional Say What You See (SWYS) Voice Activation† is a useful technology which helps the driver to use and interact more easily with the advanced systems of the LR2 by displaying voice commands on the seven inch color Touch-screen.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license.

†Additional charges apply. Please contact your Land Rover Retailer for details.

LOADSPACE. The versatile rear loadspace can be expanded by folding the 60:40 split rear seats to provide a flat load floor, and up to 58.9 cubic feet/1,670 liters of space. With 39.3 inches/one meter between the wheel arches there's always room for more awkward loads.

FRONT SEAT AND TRIM MATERIALS. The standard trim colors are available in Ebony and Almond. The driver's seat provides excellent support with standard six-way adjustment. The HSE LUX Package includes Premium Windsor leather in Ebony and Almond as well as two additional colors Ivory and Tan. Additional options† include driver's seat memory package and driver's seat eight-way adjustment.

†Additional changes apply. Please contact your authorised Land Rover Retailer for details.

CENTER CONSOLE STORAGE. The rear of the center console features an additional storage box for small items, a 3.5mm auxiliary socket for MP3 players and a power socket, which can be used to recharge PCs and other low-wattage electrical equipment.

CONVENIENCE FEATURES. Life with Land Rover LR2 is so practical thanks to thoughtful technology. Features include: an electrochromatic rear view mirror for automatically minimizing the glare of headlamps at night. There are rain sensing wipers and twin map lights conveniently located in the roof console above the rear view mirror.

PANORAMIC SUNROOF. The standard panoramic sunroof – with a fixed rear section and electric tilting/sliding front section – adds to the feeling of lightness and airiness within the cabin. The glass is specially formulated to filter the sun's infrared rays, providing light without unpleasant heat. Both sections also include a convenient blind.

IN-CAR ENTERTAINMENT. An outstanding choice of in-car entertainment systems, all with USB compatibility. Meridian™ a world leader in audio technologies and digital sound processing creates sound just as the artist intended by benchmarking acoustic performance against real musical instruments. The Meridian™ Surround Sound System provides a perfect stereo image for each occupant and produces a natural, enveloping concert-like experience.

- Standard Meridian™ Sound System featuring 380W amplifier with 11 speakers (including subwoofer). Seven inch color Touch-screen and 1xUSB auxiliary input
- Optional† Meridian™ Surround Sound System featuring 825W amplifier with 17 speakers (including subwoofer). Seven inch color Touch-screen and 1xUSB auxiliary input. Features unique Trifield™ technology

Note: Sirius Satellite Radio* is available on the LR2.

*Subscriptions governed by Sirius Terms and Conditions available at Sirius.com. Service available in the 48 contiguous United States and D.C. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. and its subsidiaries.

†Additional charges apply. Please contact your Land Rover Retailer for details.

REAR VIEW CAMERA. The optional† Rear View Camera helps reversing by displaying a wide-angled rearward view from the vehicle on the center console screen. To aid maneuverability, lines representing the vehicle's predicted path are superimposed on the image.

†Additional charges apply. Please contact your Land Rover Retailer for details.

CLIMATE CONTROL. Standard air-conditioning system with dual-zone climate control, with pollen filter and humidity sensor maintaining fresh air in the cabin, keeping you and your passengers comfortable whatever the weather.

SATELLITE NAVIGATION. The optional† satellite navigation system, with a seven inch color Touch-screen, easy-to-use menu and extensive point-of-interest database, makes finding your destination as simple as possible.

†Additional charges apply. Please contact your Land Rover Retailer for details.

Information Provided

REAL PRO

TERRAIN RESPONSE®. Land Rover's renowned Terrain Response system adds to the Land Rover LR2 vehicles breadth of capability. Any of the four programs – General Driving, Grass/Gravel/Snow, Mud and Ruts or Sand – can be easily selected. In addition all vehicles with Terrain Response are also fitted with Hill Descent Control and Land Rover's Gradient Release Control systems.

These systems are not a substitute for driving safely with due care and attention and will not feature under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

PASSIVE START AND START/STOP BUTTON. The convenient Passive Start system automatically detects the close proximity of the key, allowing use of the Start/Stop button without the key being docked in the vehicle.

COMMANDSHIFT®. The six-speed automatic transmission with CommandShift is standard. CommandShift provides manual sequential gear changes and Sport mode for an even livelier performance.

REMOTE CONTROL KEY. The remote control includes the following functions: locking and unlocking of the doors and tailgate, a 30 second courtesy headlamp delay and activation of alarm.

Information Provided by: DEALER

PERFORMANCE WITH EFFICIENCY. The new 2.0 liter Four Cylinder Turbocharged engine provides state-of-the-art turbocharged efficiency with the refinement and performance associated with a six-cylinder engine.

SAFETY.** High-strength steel is used to construct a strong monocoque body and inner safety cell protected by front and rear energy absorbent crumple zones. Seven airbags are fitted as standard on all vehicles. There are separate driver and front passenger airbags for head and chest protection as well as side airbags for side impact protection.

Full-length curtain airbags help to provide head impact and rollover ejection protection for all occupants.

Land Rover LR2 also features a driver's inflatable knee airbag for additional lower body protection.

**Please remember that the safety belts in a Land Rover vehicle constitute the primary protection system for driver and passengers in collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

STABILITY CONTROL SYSTEMS. Land Rover LR2 comes with a host of stability control systems as standard, designed to enhance traction by reducing engine torque and applying a unique braking force to each individual wheel where driving conditions dictate. They include: Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Emergency Brake Assist (EBA), Cornering Brake Control (CBC), Electronic Traction Control (ETC), Dynamic Stability Control (DSC) and Roll Stability Control (RSC).

These systems are not a substitute for driving safely with due care and attention and will not feature under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

HEADLAMPS. There are two types of headlamp available, standard halogen headlamps with impact-resistant polycarbonate lenses and optional† automatic xenon headlamps with Automatic Headlamp Levelling and LED signature.

†Additional charges apply. Please contact your Land Rover Retailer for details.
