

TOUGH WORKER LEGENDARY DURABILITY

Ram Heavy Duty. It stands out, and it stands up. The truck known for getting the job done on work sites and boat launches now takes on the great outdoors, in the new Ram Outdoorsman. But whichever model you choose for your brand of work or lifestyle, the family of 2011 Ram Heavy Duty provides total authority and capability. Standard on 2500 Ram Heavy Duty pickups is nothing less than the legendary 5.7-liter HEMI® V8, an engine which continually proves itself. Need the torque that comes from diesel-generated strength? The available and formidable 6.7-liter Cummins® Turbo awaits your order. Further refinements are seen in interior treatments that encompass available upperpanel stitching and a woodgrain center panel to the convenient rear in-floor storage bins in Ram Crew Cab. As for quality, it's standard equipment, too: every Ram Heavy Duty is backed by a fully transferable 5-Year/100,000-Mile Powertrain Limited Warranty. Of course, there's more. Start here, visit ramtrucks.com — and then join the online action on our blog at RamZone.com

*A NOTE ABOUT THIS BROCHURE: All disclaimers and disclosures can be found on page 22 of this catalog.

BECAUSE YOUR WORLD IS THE REAL WORLD. You need a work truck, a tow truck for cross-country travel trailers, or, in the case of new Ram Outdoorsman, a capable means to handle the far reaches of nature. And you demand comfort. Ram Heavy Duty interior can reach a level of comfort to rival luxury sedans. Count on available power lumbar seats, available heated and ventilated seats, available Dual-Zone Temperature Control, a standard, conveniently located Electronic Vehicle Information Center (EVIC), and available electronics that cover it all: music, navigation, hands-free Bluetooth® compatible communications, even the Internet. Speaking of which, upload your personal Ram story — at youtube.com/Ram

DUAL PURPOSE. ONLY RAM.

There are two sides to how people use Ram Heavy Duty pickups. On the one hand, the commercial, industrial, and agricultural worlds get ultra-capable payload capacity from a tough-as-nails truck designed for a lifetime of hard labor. On the other, are the many recreational drivers whose heavy-duty towing needs vary from towing large campers and boats to horse trailers.

Those worlds intersect in the Ram Heavy Duty interior. Here, comfort and convenience are measured by design ingenuity, ease of use, and sheer practicality.

Here's where gauges and controls reflect thoughtful design for easy reach and function. Where instrumentation instantly communicates information, like a speedometer and tachometer with read-at-a-glance white-on-black numbers. Where the EVIC — the Electronic Vehicle Information Center, standard on all Ram Heavy Duty models — offers both crisp readability and a wealth of operating information about the vehicle.

Enlarge the world of Ram Heavy Duty with Authentic Accessories from Mopar.® Start exploring the possibilities at mopar.com

No matter how you use your Ram Heavy Duty, we're keen on seeing it for ourselves. Upload video, pics and commentary at two new dedicated sites: youtube.com/Ram and twitter.com/RamTrucks

IN-FLOOR AND UNDER-SEAT STORAGE. On Crew Cab models, the removable in-floor bins conveniently accommodate wet or dry items. Storage under the rear bench is also available for Crew Cab Heavy Duty models, when you need to stow things out of sight but find them fast. The underseat bins are ideal for valuables and tools.

AVAILABLE DUAL GLOVE BOXES. Now glove box storage offers advantages too big to ignore, with no compromise in interior room — but a big jump in everyday convenience and comfort.

HEATED AND VENTILATED FRONT SEATS are available, using premium materials and unique seat stitching. Small, unobtrusive fans direct heat away from the occupants. Mega Cab® and Ram Crew Cab also offer available heated rear seats.

Today's world is all about your connections. Outfit your Ram Heavy Duty with Uconnect® to help stay in touch with the people, music, and devices that matter most. It acts as the hub for your most important media — cell phone, Internet, satellite radio, navigation system, and personal devices, such as an iPod® or smartphone. The Uconnect systems are user-friendly and put communications at your fingertips.

PHONE. Talking on the B phone while driving has never been easier — or more responsible. Uconnect Phone is the in-vehicle, voice-activated communication system that allows you to pair up to seven Bluetooth® compatible phones and then talk virtually handsfree. This system is also clever enough to synchronize with your phone's address book[3] — up to 1,000 entries — every time you get into your vehicle. Remote USB port provides charge to mobile devices.

WEB. Put the power of high-speed Internet in your vehicle with Uconnect Web.(4) Effortlessly connect any WiFi-enabled device to the Internet at 3G broadband speeds making your vehicle a mobile Hotspot. Passengers can use multiple devices at the same time. There's no need for cell cards or software with this unique Authentic Accessory by Mopar® connectivity is all done wirelessly. Subscription required. Sold separately.

VOICE COMMAND. It (, , , simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Vocally select FM radio stations, SIRIUS® Satellite Radio[5] channels, make and receive calls, select navigation destinations, and record voice memos. This smart system technology can also be trained to better recognize your voice and can understand commands in English, French, and Spanish.

MULTIMEDIA. Manage all [] of your media. You'll have six ways to access audio, including SIRIUS Satellite Radio^[5] (your first year of service is included), a 30GB hard drive, iPod Control with Voice Command, and wirelessly stream music through Bluetooth streaming audio. Rear Seat Video can be accessed in multiple ways: from Mopar, SIRIUS Backseat TV,TM[5] DVDs, compatible multimedia devices and gaming consoles.

NAVIGATION SOLUTIONS.
Choose either Garmin® or Enhanced GPS Navigation.
Garmin is easy to use with
Lane Guidance. Enhanced
GPS Navigation provides
destination entry via Voice
Command and SIRIUS Traffic^{TMIS]}
for real-time traffic
information on the go.

NO DIESEL EXHAUST FLUID (DEF) REQUIRED HERE. The Cummins 6.7-liter Turbo Diesel in Ram Heavy Duty is the only one in its class to meet all 50-state emissions standards — with no need for DEF — resulting in impressive savings in time, costs and hassles.

HIGH FUEL-INJECTION PRESSURES. Rated at 26,107 psi (1800 bar), these pressure levels translate into proven capability and performance.

FORMIDABLE BLOCK STIFFNESS. The cast-iron engine block technology contributes to less noise and vibration and helps mitigate harshness.

COMMON-RAIL ARCHITECTURE. The common-rail fuel system in the 6.7-liter Cummins Turbo Diesel works with sophisticated electronics to yield multiple advantages.

Among them — uncommonly quiet operation.

INTEGRATED GRID HEATER. An engineering accomplishment by Cummins to help achieve outstanding cold-starting ability. The Cummins starts without glow plugs or an ancillary block heater in temperatures as low as -20°F.

ELECTRONIC CONTROL MODULE (ECM). This proprietary engineering enables the engine to respond faster to throttle inputs. Its expanded electronic features were specifically designed for the demands of the commercial market.

FUEL FILTER: A WORKING MODEL OF EFFICIENCY. There is little doubt that diesel will play an increasingly important role for both truck and car propulsion. Diesel engines today are a model of cleanliness — in part, due to the fuel filter. The Cummins Turbo Diesel features a fuel filter with outstanding efficiency.

technologies built into every Ram Heavy Duty, this feature on the Cummins Turbo Diesel ranks as one of the best. It allows greater control over the vehicle, especially on downgrades. It can help extend brake life and help save in operating costs. Little wonder why drivers love it.

VGT TECHNOLOGY: THE DETAILS. Diesel power from Cummins encompasses a number of advanced technologies. Contributing to the legendary Cummins durability is the Variable Geometry Turbocharger (VGT), a controller used in concert with a large front-mounted intercooler. It's all about increasing performance: this engineering allows precise airflow calibration, and helps balance the need for maximum power while obtaining maximum engine efficiency. One further benefit: when the Diesel Exhaust Brake integrated with the VGT is activated, cab warm-up times are faster.

TURBO DIESE

PHENOMENAL PERFORMANCE. The Cummins features a strong flat torque curve over the rpm cycle, with the characteristic inverted check mark showing superb acceleration. The Cummins 6.7-liter Turbo Diesel engine is standard on Ram 3500 Heavy Duty pickups and is available for Ram 2500 Heavy Duty pickups.

With 6-speed manual transmission

- 350 horsepower @ 3,013 rpm
- 610 lb.-ft of torque @ 1,400 rpm

With 6-speed automatic transmission

- 350 horsepower @ 3,000 rpm
- 650 lb.-ft of torque @ 1,500 rpm

It's just right for

HERITAGE IS IN.

Ram Heavy Duty, and it's just what you need in the race to be the best. Because the HEMI® V8 was designed to carry everything imaginable: payload, passengers and, in the end, a reputation for outstanding performance. And that's exactly why the decision of our engineers to incorporate Variable Valve Timing (VVT) into the legendary 5.7-liter HEMI V8 power plant shows genius on our part and practicality on yours. VVT offers increased engine breathing throughout the rpm range, by varying the points at which the valves open and close in relation to particular piston position. It's a refinement with realworld benefits, which include more efficient operation, and — notably for Ram Heavy Duty — VVT increases torque, giving you exceptional towing and hauling: exactly the principal demands made of the pickups built for decades of work. From the dual standpoints

383 horsepower @ 5,600 rpm 400 lb-ft of torque @ 4,000 rpm

of acceleration and torque, the HEMI V8 is unquestionably the gas engine of efficiency.

545RFE 5-SPEED AUTOMATIC.

A sophisticated multirange electronically controlled transmission with optimized gear ratios and Electronic Range Select for responsive, durable performance. Standard with the 5.7-liter HEMI V8 on 2500 models.

68RFE 6-SPEED AUTOMATIC.

Features Electronic Range Select for optimal performance. Outstanding strength, stamina, and reliability, with impressive performance at all rpm levels. Available for Ram 2500 and 3500 Pickups.

6-SPEED MANUAL.

Here, a high-ratio sixth gear offers ideal lower highway figures for all rpm ranges along with the welcome efficiency inherent in manual transmissions. The proven 6-speed manual is the standard drivetrain component for Ram Heavy Duty models powered by the

IT'S THE ULTIMATE IN CAN-DO ATTITUDES. Let owners of other trucks offer "maybe" and "might" when it comes to getting something done. Because whether it's your day job or helping a pal on a weekend, Ram Heavy Duty has what it takes. That available Cummins® Turbo Diesel and its massive 650 lb-ft of torque^[8] are more than legendary. Mate it to the available 6-speed automatic transmission with Electronic Range Select to manually select each gear for hands-on control. Adjust towing control ranges with a dash-mounted button for the Tow/Haul mode, which reprograms the transmission to optimize the shift points and gear selection for towing or hauling heavy loads.

MASTER THE TOWING. Towing with the Cummins puts a wealth of technology to work for you. The invaluable diesel exhaust brake — standard with every Cummins Turbo Diesel — is activated by a simple dash-mounted button and lets you control the truck and the trailer speed with engine braking. It's an everyday convenience that's ideal when towing through mountainous terrain. Further confidence while towing large loads comes from Ram's four-wheel ABS with massive front and rear disc size; rotors that

measure over 14 inches are more than capable of bringing Ram's maximum GCWR of 24,500 lbs^[8] to an effortless halt. The brake story continues with the available fully integrated electronic trailer brake controller: drivers can customize the amount of brake force the trailer uses, depending on load requirements.

CONNECTIONS ARE CRUCIAL. Ram covers it all. Every Ram Heavy Duty Pickup comes equipped with a standard Class IV trailer hitch receiver with a convenient four- and seven-pin trailer harness connector — but when more towing capability is required, look to Authentic Ram Accessories by Mopar® to add critical towing assemblies like a Fifth-Wheel or a Gooseneck Hitch. The finishing touch to the Ram Heavy Duty towing story is the Electronic Vehicle Information Center (EVIC), allowing the driver to monitor temperatures and pressures for the engine, the oil, the transmission, and even the available trailer brake controller. Put it all together, and there's little doubt that Ram Heavy Duty is the perfect tow vehicle.

THE TOUGH HYDROFORMED FRONT STRUCTURE IS DESIGNED TO BE THE PRIMARY ABSORBER OF ANY IM-WE FOCUS ON COMPONENTS THAT OFFER SUPERB STRENGTH, DURABILITY AND RELIABILITY. RAM HEAVY DUTY FEATURES SUPER-STRONG SUSPENSION PACTS — DEFLECTING THE ENERGY FROM THE DRIVER AND FRONT PASSENGER, AND CONTRIBUTING TO EN-HANCED SAFETY AND SECURITY. BUSHINGS, OUTSTANDING FRONT-SPRING RATES, AND SPECIALLY TUNED SUSPENSIONS. ALL CONTRIBUTE TO IMPRESSIVE MANEUVERABILITY AND DEFT HANDLING UNDER A WIDE VARIETY OF LOADS AND LOOK FOR CAPABILITY UP TO 5500 LB. HIGH FRONT GAWR ROAD CONDITIONS. FIGURES ACCOMMODATE LARGE SNOWPLOW APPLICATIONS. UNDER THE C-PILLARS, SPECIAL HYDRA-MOUNTS ENHANCE COMFORT AND QUIETNESS. THESE UNIQUE MOUNTS ARE LITERALLY "TUNED" TO HELP ELIMINATE THE VIBRATIONS OF THE SUSPENSION AND FRAME. WE COMPLETELY SEAL THE INTERIOR, GIVING YOU A BEYOND-QUIET CABIN. OUR DESIGN EFFECTIVELY MANAGES INSIDE AIRFLOW THROUGH THE CAB AND OUT, VIA PROPRIETARY AIR EXHAUSTERS IN THE REAR OF THE CAB. GRAYSTONE METALLIC LOWER. ***DRF11US4_080 LARANTE DUALLY IN TWO-TONE MINERAL GRAY METALLIC AND LIGHT CAB RAM HEAVY DUTY BRAKES RANK AMONG THE BEST. THIS MULTICHANNEL, FOUR-WHEEL ANTILOCK SYSTEM IS ELECTRONICALLY OPERATED, WITH FRONT BRAKES CONTROLLED INDIVIDUALLY AND THE REAR IN TANDEM. ELECTRONIC VARIABLE BRAKE PROPORTIONING (EVBP) BALANCES FRONT-TO-REAR PROPERTIES. THE MASSIVE ROTORS EXCEED 14 INCHES IN DIAMETER, OFFERING UNCOMPROMISED BRAKING POWER. THE STRUCTURAL CAB STRENGTH COMES FROM HIGH-STRENGTH STEEL (HSS) REINFORCEMENTS AND SPECIALIZED INSERTS WHICH ARE INTEGRATED DIRECTLY INTO THE CAB. RAM HEAVY DUTY ALSO FEATURES SUPER-STRONG WINDSHIELD PILLARS AND WHY SO MANY LOOK UP TO OUR QUALITY. Viewed from any angle, the 2011 Ram Heavy Duty models provide every capability needed for the long haul, B-PILLARS. along with engineering design that helps give you a ride noted by exceptional handling, maneuverability and convenience. Take an item like Ram's triplesealed door-cab connections, which offer a benchmark for fit, finish and inside comfort, keeping noise and moisture out of the cab. Even more impressive is the jaw-dropping extent of Ram Heavy Duty testing. Preproduction trials put these pickups through situations unlikely to be

encountered in your life — or lifetime. These range from grueling durability tests to excessive climate testing and road simulation shake trials to test

tracks that resemble mountainous terrains. All of these, and more, play a part in Ram's commitment to — and heritage of — quality.

Meet the perfect package for people whose lives revolve around camping, fishing, hunting, and exploring the great outdoors. New Ram Outdoorsman is available for all Heavy Duty single rear wheel models in 4x4 and 4x2

configurations, powered by either the 5.7-liter HEMI® V8 or the 6.7-liter Cummins® Turbo Diesel. With its distinctive exterior working with interior comforts designed for long trips both on- and off-road, new Ram Outdoorsman distinguishes itself with outstanding amenities - above all, for towing.

We know that your ATV, camper, boat or trailer is almost part of the family. So our focus on super-capable towing gives you heavy-duty cooling systems for the engine, transmission, and power steering system; authoritative, oversize 17-inch All-Terrain tires, tough tow hooks, and a Class IV trailer hitch — all standard.

The interior brings home every nuance valued by the outdoorsman. Standard equipment includes Remote Start (automatic transmission only) — ideal for moving from cool duck blind or boat launch into a cabin that's campfire warm — a leather-wrapped steering wheel with audio controls, Power Driver Seat, satellite radio, built-in 115-volt outlet, five-speed automatic and security alarm.

You can further personalize your new 2011 Ram Outdoorsman Heavy Duty with a wide variety of Authentic Accessories by Mopar specifically designed for this exceptional Ram model. Offering superb fit and finish are seat covers and vinyl graphics featuring a camo pattern from Mossy Oak® — the official camouflage supplier for Ram Outdoorsman. The distinctive touches continue with a wide range of items that make working in the great outdoors a breeze including: Bed Tie-Downs, Cargo Ramps, and the indispensable Back-Up Camera. 191 The available Drop-In Bedliners and Tonneau Covers help protect your new Ram's cargo area for decades. You'll also find items to extend capability and security — like the available Pickup Box Utility Rails, Bed Extender, Bed Mount Cargo Basket/Cargo Net and Cargo Bin Locks. There are literally hundreds of accessories for your Ram. Get more at mopar.com

MEGA. IN SO MANY WAYS.

If you're going to go anywhere, go beyond expectations, with Ram Heavy Duty Mega Cab® and the largest interior volume in its class. [7] Properly equipped with the available 6.7-liter Cummins® Turbo Diesel and 6-speed automatic transmission, your mega-towing capability peaks at 16,950 lb, [8] with payload reaching an impressive 3,110 lb. [8] For occasions when the more-than-average rear leg room isn't needed, mega-capability comes into play: the rear seats fold flat, letting you transport large items with minimal hassle getting in and out.

In a truck designed for space and convenience, there's even mega-storage at your disposal. Note the convenient behind-the-seat bins for maps, papers, valuables, small tools, and other equipment. For even further capability, outfit your Ram Mega Cab with Authentic Accessories by Mopar—the Gooseneck Hitch or Fifth-Wheel Hitch allows maximum towing capability⁽⁸⁾—to tow with mastery. For more on what is clearly big news, check us out at ramtrucks.com

POWER WAGON: CAPABILITY & EXTREME.

SO FAR ABOVE, OTHERS JUST DON'T COME CLOSE. There are certain work conditions out there that require capability and strength that put the competition to shame. The features you'll find in the 2011 Ram Power Wagon put this exceptional pickup at the top — and other trucks out of the running.

Exceptions are always designed and built to create new rules for others to follow. And follow they will — that is, if they can even get there. For the principal purpose of Ram Power Wagon is to prevail under the most extreme work conditions.

Constructed to meet the three-quarter-ton weight class capabilities, the legendary 5.7-liter HEMI® V8 in Power Wagon starts a list of standard equipment that includes extensive underbody skid plate protection, class-exclusive^[7] electronically locking front and rear differentials and a class-exclusive^[7] electronic disconnecting front

sway bar (also known as a stabilizer bar), which offers an incredible nine inches of additional articulation, letting you handle rocky paths and timber-strewn back roads with unexpected fluency. The ultra-capable Bilstein® gas-charged monotube shock absorbers, like the 12,000-pound capacity WARN® winch, are both critical elements of Ram Power Wagon: standard, and indispensable should you be called to help a less-capable truck out of a jam. Additional standard features also go to extremes, like Power Wagon's robust 4.56-to-l axle ratio, 33-inch All-Terrain tires and no-nonsense 180-amp alternator.

Ram Power Wagon. In a world where seeing is believing, we encourage you to show this phenomenal truck in action. Shoot your videos that show the out-of-the-ordinary capabilities that give Power Wagon its own identity in the truck world — by posting them on youtube.com/Ram

MOPAR. PROVING RAM IS ALL ABOUT WORK.

FOR HEAVY-DUTY PERFORMANCE, RAM ACCESSORIES GET THE JOB DONE. Authentic Ram Accessories provide the style that matches your Ram's power. From grille to gate and everything in between, these are the accessories to help your Ram work harder.

STEEL LADDER RACK. Features raised side rails, impressive cargo bed clearance, 1,000-lb. capacity. (Properly secure all cargo.)

SLIDING TOOLBOX. Durable aluminum toolbox with easy access lid, protective seal coat, stainless steel hinges, locking handle, and continuous body welds. Available for conventional beds equipped with Pickup Box Utility Rails (shown, sold separately) or RamBox.®

UNDER-THE-RAIL-BEDLINER. Skid Resistor bedliner's ribbed construction helps keep cargo from shifting, promotes water drainage from bed, and includes built-in supports

to split cargo. The liner is molded of a high-density polyethylene blend for added durability. Tailgate cover also included. (See dealer for details.)

BED STEP. This retractable step mounts securely to provide a convenient intermediate platform to the truck bed, making it much easier to step up to the tailgate. The spring-loaded cam allows the step to be easily extended by stepping down on it, and it retracts with a slight push.

FIFTH-WHEEL HITCH WITH GLIDER. Count on impressive 16,000-1b capacity. This premium hitch mounts directly to the crossmember of the frame; unique scissor clamps securely attach hitch to mounting brackets. Hitch does not touch cargo bed, and when removed, allows full use of bed area.
