Ask them to hold your calls.

It'll be hard to get back to the office after you get your hands on the newly redesigned Audi A5. It's funny how a captivating design paired with ultraresponsive performance will make counting vacation days a favored pastime. And with a new look for 2013, we're sure the A5 will cause more than a few sick days spent to get some fresh air. Available in Coupe or Cabriolet variants, there is an A5 and a drivetrain for every driver. With the undeniable grip of available Audi quattro® all-wheel drive and your choice of three transmissions delivering dynamic response, the A5 also delivers an exhilarating driving experience. Featuring an impressive 2.0-liter turbocharged Audi TFSI® engine, you get optimized efficiency¹ without minimizing power. It might be that your only problem when driving the A5 will be going through all of the unread e-mails when you finally make it back to the office. You might just want to stay on the road.

2013 Audi A5 2.0T Prestige shown in Ice Silver metallic with optional 19" 10-spoke design wheels and available Driver Assist package.

¹ EPA estimates not available at time of printing. Your mileage will vary.

More than just a nip/tuck job.

While most cars in its class are still playing by the same old rules, Audi is changing the game. At first glance, it's easy to see that the Audi A5 is a favorite in its class. The restyled A5 is cut from the same Audi cloth, but stitched together in an entirely new way, based on Audi Sport® heritage. The A5 is an elegant take on the aggressive styling and power you've come to expect from Audi. Newly refined lines sweep across the three-dimensional hood to the rear, fusing the headlights and taillights, while the tapered Audi Singleframe® grille comes on strong as a brash emblem of cool. The design of the A5 gives it a bold style and aggressive stance you won't find in many places, so you certainly won't feel stuck with an old luxury look. The double take confirms that the A5 is back and better-looking than ever.

.02 - Perfect Proportions

Nothing feels out of place in an A5, and that's by design. Its streamlined body, greenhouse design allows its sleek roof to flow seamlessly from its long hood. This is contrasted elegantly by short overhangs at the front and rear, giving this sports car its signature aesthetic.

short overhang optimum wheelbase short overhang

- fig. 02

- fig. 01

.01 - LED Daytime Running Light Technology

Stylish and iconic, available LED daytime running lights help enhance the unmistakable look and design of the Audi A5, as well as its visibility to other drivers, especially during the dawn and dusk hours.

It's a matter of substance.

Since the Audi A5 is composed of some of the finest materials available in a luxury performance coupe, you know that substance is more than skin deep. The interior is artfully crafted, using the finest elements to stimulate your sight, touch and sense of smell. Beautifully stitched and wonderfully composed textures are a symbol of the uncompromising spirit that Audi embodies. Our interiors are a visual representation of the performance you've come to expect from Audi: sleek, fluid and substantively composed. It might just be where you develop that deep connection to your A5.

.03 - Panoramic Sunroof

Another enhancement to your drive is the standard panoramic sunroof on the A5 Coupe. Nothing gets between you and the sky, giving the cockpit even more headroom. If you don't want to fully engage with the environment, the retractable shade feature is there too. So let the sun drench the interior of your A5 as you enjoy a care-free driving experience.

.04 - Split Folding Rear Seatbacks

With 12.2 cubic feet of cargo space in the A5 Coupe and 10.2 cubic feet of cargo space in the A5 Cabriolet with the seatbacks in the up position, the A5 is club store-ready. The A5 Cabriolet has split folding 50/50 rear seatbacks, and a pass-through is available with the split folding 60/40 rear seatbacks of the Coupe. You can enjoy all the benefits of a sports car and still have room for your oversized toys.

2013 Audi A5 2.0T Prestige shown in Titanium Gray leather with available Driver Assist and Sport packages.

A high-angle, black and white photograph of the interior of a 2013 Audi A5. The view is from the driver's perspective, looking towards the front passenger seat. The steering wheel is prominent in the center, featuring the Audi logo and various control buttons. Behind it, the instrument cluster shows two analog gauges and a digital display. The center console has a large infotainment screen displaying the Audi logo and 'A5'. Below the screen are air vents, a radio unit, and climate controls. The gear shift is visible in the lower center. The front seats are upholstered in a light-colored leather with a quilted pattern. The overall aesthetic is clean, modern, and sophisticated.

Love at first seat.

The second you decide to climb into the driver-centric cabin of the Audi A5, you can be confident you'll be fully engaged. A multifunction steering wheel has every control you need right at your fingertips, placed where they are the most intuitive to use. It may take a while to see what a pair you and the A5 make, because you've never been so coupled with a car. In fact, you'll have the same experience as other A5 drivers—never has such intimacy been felt with an inanimate object.

2013 Audi A5 2.0T Prestige shown in Titanium Gray leather with available Driver Assist and Sport packages.

Another way to open it up.

Breathe in the fresh air and let the interior out. Top down, the Audi A5 Cabriolet gives you a whole new perspective on driving. No matter your drive, a brisk morning commute or a lazy sunny afternoon tour through the country, the A5 Cabriolet gives you a sense of freedom only attainable with the breeze rushing through your hair. While your neighbors may wonder why you've got the top down on a chilly morning, the available head-level heating system helps ensure your comfort even if the weather is contrary.

0. seconds

4. seconds

14. seconds

17. seconds

The top of the A5 Cabriolet invites you to take advantage of clear skies for as long as the sun is out. If clouds do come, it takes approximately 17 seconds for the driver to fully deploy the roof (even at speeds up to 31 mph), so you can practically beat the first drop you see.

2013 Audi A5 Cabriolet 2.0T Prestige shown in Teak Brown metallic with available Driver Assist package.

1. Timeline shown does not accurately reflect soft-top operation and is for illustration only.

The perfect car for European beaches.

Go ahead and go topless, they're already staring. It could be the available Comfort package that has them intrigued, with perforated Milano leather seating surfaces and ventilated and heated sport front seats. The available Audi MMI® Navigation plus system helps keep you covered even when you're not, by letting you access music, information and navigation with just a few clicks of a button. And in case you get bashful, just bring the top back up and no one will be the wiser. But we don't think you will.

4.05 - *Ventilated and Heated Sport Front Seats*

Some added comforts for the top-down drive along the coast are the available heated and ventilated sport front seats. You can get a little extra touch of warmth from the available head-level heating system vents that blow warm air directly onto your neck and shoulders.

quattro

It's a bond between your car and the road.

It's true that while the available Audi quattro® all-wheel drive may have been engineered to help drive through inclement weather and in low-traction situations, the real magic of this advanced system is how it performs in the dry. Power is distributed to all four wheels working in concert to help grip every corner while giving you the optimal amount of power delivery where and when it's needed. In other words, quattro® helps enhance performance by appropriately transferring power to the necessary wheels when accelerating and turning, so you have confidence-inspiring performance when the road isn't at its best. Inclement weather aside, the really gripping story about quattro® is how it performs overall, forging a sure bond between you, your Audi A5 and the road.¹

Confidence-inspiring

Under ideal conditions, power is 40:60 rear-wheel-biased to help maximize acceleration and cornering, but the instant conditions become more challenging, the ratio is optimized for superior grip and control.

Torque split

When accelerating out of a turn, up to 80% of the power is mechanically shifted to the rear wheels, where it's best allocated to propel the vehicle to your desired speed and onto the straightaway. Once traveling in a straight line again, the 40:60 power distribution that quattro® delivers to the front and rear wheels, respectively, gives you maximum torque to push onward.

Torque vectoring

It's a handling feature that seems to respond to your impulses before your steering input. An evolution of cross-axle lock, this available system works within quattro®, while utilizing ESC and ABS to help sense traction loss from the inside cornering tire.

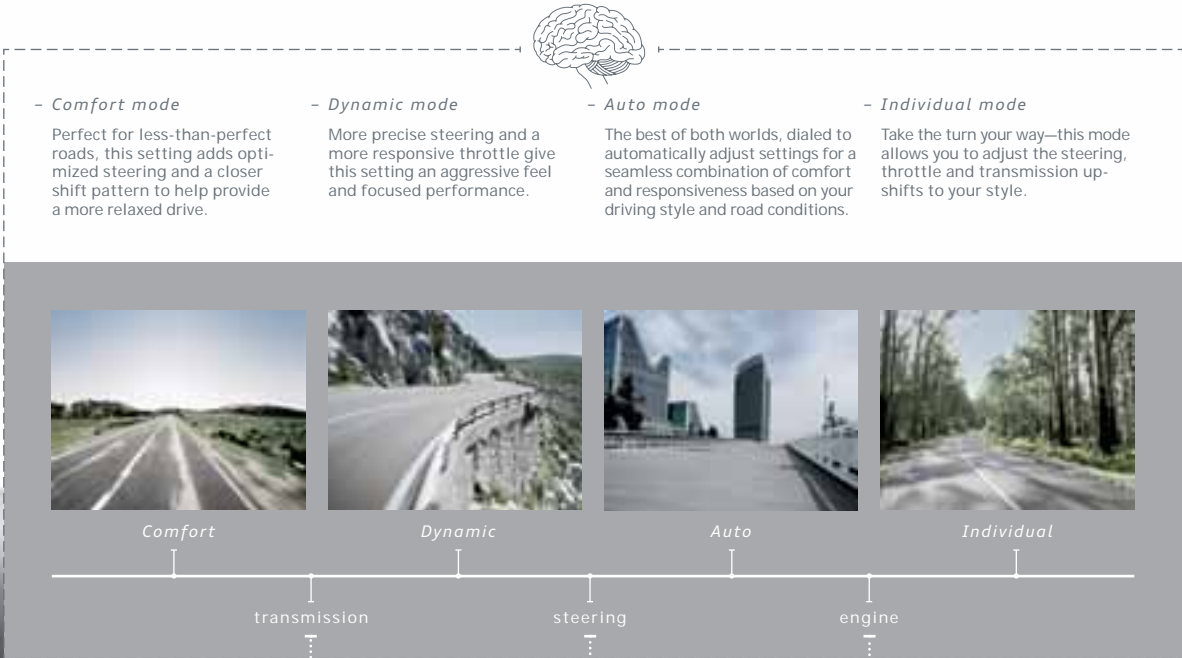

Information Provided

¹ When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter-weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

Express yourself out there.

With four different modes expressing your individual driving preferences, the exclusive Audi drive select system available in the Audi A5 helps give you the ability to adjust the vehicle's steering, throttle response, and transmission shift characteristics. It helps you articulate how you want your A5 to respond to the drive. The four modes of Audi drive select cover the full spectrum of driving and road conditions. So whether driving on a winding country road or a busy interstate, there is a mode that helps your vehicle respond the way you want it to. Since the roads you drive are not always optional, we think how you choose to drive them should be.

.06 – Electric Power Steering

The electromechanical power steering combines precision and comfort with impressive energy-saving technology. It's not only an ideal complement to the available sport-tuned suspension, but requires considerably less energy than a hydraulic system, due to its less complex design. Removing the power steering pump helps reduce parasitic drag, resulting in enhanced efficiency.¹

¹ EPA estimates not available at time of printing. Your mileage will vary.

2013 Audi A5 2.0T Prestige shown in Ice Silver metallic with optional 19" 10-spoke design wheels.

We've resolved to lose the extra weight.

It's fairly simple to explain. Since we've exploited lightweight technology, excessive horsepower is a thing of the past. We're building lighter engines that not only allow for better performance, but also an increase in fuel economy. The four-cylinder 2.0-liter Audi TFSI® engine that produces 211 hp and an impressive 258 lb-ft of torque with its direct injection and efficient turbocharging technology is leading the way. The combination of a lightweight engine and the wide spread of the gear ratios within each of the available transmissions makes for an exhilarating driving experience at every turn.

.07 - 2.0 Turbocharged Four-cylinder

Years ahead of the competition, this 2.0-liter turbocharged DOHC engine combines the Audi valve-lift system, variable valve timing, TFSI direct injection and turbocharging for more power and greater efficiency.

Compressing the air flow to the engine allows more air into the cylinder and, ultimately, more power from each ignition, significantly improving the engine's power-to-displacement ratio.

Four valves per cylinder

Audi TFSI direct injection helps cut down on waste and increase power by delivering a precise amount of fuel directly into the engine cylinder, helping to ensure a more complete combustion.

211 hp / 258 lb-ft of torque

With higher compression ratios and cylinder pressure, the Audi TFSI engine fully atomizes fuel and helps optimize boost response.

Compression ratio of 9.6:1

The combination of these advanced technologies allows Audi to use a smaller, more efficient engine that still achieves excellent power and performance results.

0 - 60 mph in 6.2 seconds

Stay tuned for a dynamic transmission.

Many drivers mistakenly blame their engines for poor acceleration, when it's actually the transmission that isn't rising to the occasion. The Audi A5 eliminates the problem with revolutionary transmissions. By utilizing optimized gear ratios, each one of the three available transmissions is capable of delivering engine power in the most responsive and efficient way possible. On models equipped with automatic transmissions, drivers are able to command upshifts or downshifts through the available steering wheel-mounted shift paddles. A shift has been made and the choice is yours: choose what propels your A5.

.08 - Eight-speed Tiptronic® Automatic Transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission available in the Audi A5 offers eight optimized, carefully chosen gear ratios. Selected via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A wide final drive ratio allows optimization of lower gears, yet its upper range emphasizes fuel economy—particularly at highway speeds.

.09 - Six-speed Manual Transmission

For drivers who crave engaging and dynamic response, the Audi A5 presents an available six-speed manual gearbox that delivers power with vintage Audi finesse. Its short throw and precise ratios add a contemporary element for confident performance on the road.

.10 - Audi Multitronic® Transmission

As a continuously variable transmission, the available Audi multitronic combines the efficiency of a manual gearbox with the convenience of an automatic transmission. And thanks to its variable ratios and adaptive map control, the Audi multitronic always utilizes the optimal rev range of its engine.

Anticipating needs you didn't know you had.

Available driver-assistance technologies take into account the actions of other drivers—while making your drive a little easier. From seemingly sentient Audi adaptive cruise control to Audi side assist, the Audi A5 has incorporated innovative, anticipatory technologies that don't see your future so much as help change it.

.11 – Audi Side Assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed of what is approaching from hard-to-see angles behind and to the side of the vehicle.

.12 – Audi Adaptive Cruise Control

Everyone has their own comfort zone. The available Audi adaptive cruise control maintains a driver-selected distance from the vehicle in front using a special long-range radar sensor. The system constantly measures the space between your vehicle and the vehicle ahead and maintains it by automatically adjusting your speed. Once the road ahead is clear, the vehicle effortlessly resumes the previously preset speed, helping to make your drive that much more relaxing.

Face it—you're surrounded.

Just about everywhere you look in and around the Audi A5, there is safety at the ready, whether it's airbags¹ that respond differently based on your seating position, or the crumple zones that give way to help mitigate potential injury in a collision. Laser-seam welding joins multiple-strength levels of steel to help ensure that your Audi is built with the integrity you deserve—because we know we're protecting precious cargo.

.13 – Pop-up Roll Bars

In the unlikely event that your A5 Cabriolet flips over, two roll bars deploying from hidden compartments in the rear, and the reinforced A-pillars up front, all help protect passengers. It's another way we keep innovative design as high a priority as your safety.

.14 – Airbags¹

Sensors mounted in the front seats monitor your seating position to help ensure that the adaptive front airbags will deploy in the event of a collision. Driver and passenger front, seat-mounted and side thorax airbags help keep your upper body protected, while knee-level airbags help keep tabs down below. The A5 Coupe even has two rows of Sideguard® head curtain airbags for an added level of protection.

.15 – Crumple Zones

Audi engineers have designed crumple zones in the front and rear of the A5 that help dissipate the energy and force of a collision.

.16 – Tailor-made Blanks

Developed to make the best possible use of the body's potential, tailor-made blanks use a special manufacturing process that helps strengthen the upper zone of a B-pillar while mitigating the impact in the lower zone in the event of a side collision.

¹ Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.

The functional equivalent of installing a brain in your car.

Nothing in your Audi A5 was built in isolation. What we mean is that design, engineering and technology were conceived as a seamless whole, that they are all integrated and functional. You can see that philosophy fully represented in the available Audi MMI® system. Simply put, it's an intuitive system that intimately connects you to almost every facet of the vehicle. It's the nerve center of your vehicle, allowing you to control virtually every interior function of your A5 with a simplified source control button system. From the Audi MMI Navigation plus, to the radio, to media, the MMI helps you access information with a few easy clicks. You can even pair your compatible BLUETOOTH® enabled phone with the system for added convenience. We think of these things so you can think about how good your drive feels.

.17 - Function Buttons

Helping you navigate through the MMI system with ease are four well-placed function buttons. Each button correlates to a command at the corner of the screen, and, when pressed, takes you to your desired selection.

.18 - Audi MMI Navigation plus

Count on the available advanced navigation system to home in on your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.¹

.19 - SiriusXM Satellite Radio

Go ahead. Crisscross the country. We assure you, you'll never run out of entertainment options, with over 130 channels of music, talk and news.¹

.20 - BLUETOOTH® Technology

Unlock your mobile phone's potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.²

.21 - Audi Audio

The media button opens up a world of options, allowing you to control the available Audi music interface, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD player.

¹ See Infotainment/Technology section of the Featured Content page for important information regarding Audi Navigation plus and required SiriusXM subscriptions. ² Requires compatible phone.

No one connects you the way we do.

- **Google Earth™ 3D satellite imagery**
With Google Earth™ integration, you'll enjoy 3D topography, including Google Maps Street View, displayed right on your Audi MMI® screen.³
- **SiriusXM Traffic**
Working with your Google Earth™ overlay, you can get traffic conditions and plan alternate routes to help get around traffic backups.⁴
- **Reported local fuel prices**
Find the lowest reported local price for fuel—and the directions to the station—right through the MMI system.
- **Google™ Local Search**
Search for destinations via text or voice, using the cloud processing power of Google™ speech recognition and their point-of-interest database.²
- **myAudi features**
Plan your destination from your personal computer and send your route to your A5, for a preprogrammed trip plan.
- **Weather information**
Current local conditions and forecasts for your destination can help you prepare for your trip.
- **News feeds**
Stay on top of the news by having headlines and stories delivered right to your MMI display.
- **Mobile Wi-Fi hotspot**
Provides high-speed connectivity for up to eight passenger devices through an onboard wireless hub.

We set out to change how people interact in and out of their automobiles. A suite of available technologies has made the Audi A5 a true champion of progress. And with Audi connect™ with Google Earth™ imagery and Wi-Fi connectivity for up to eight passenger devices, you have multiple ways to stay connected.¹ You can also access information and navigate entirely with your voice in just a few commands.² With that kind of access, Audi helps build on your interactive life while helping enhance your ownership experience.

¹ Distracted driving can cause a loss of vehicle control. The features and technologies discussed above are offered for convenience, and should be used only when it is safe and appropriate. The Wi-Fi hotspot feature is intended for passenger use only. Always pay careful attention to the road, and do not drive while distracted. Features may require additional subscription plan. See dealer for details. ² Voice control on Coupe only, not available on Cabriolet. ³ Introduction of feature has been delayed. ⁴ See Infotainment/Technology section of the Featured Content page for important information regarding required SiriusXM subscriptions.

DEALER
BY-PROFESSIONAL

We've orchestrated a new way of listening.

Dedicated to the idea of "honest music reproduction," Bang & Olufsen® is a sound engineer's dream. Through an available 505-watt 14-speaker system perfectly integrated within your Audi A5 Coupe, Bang & Olufsen® is set on music reaching your ears by transcending the limits of audio technology. Audi offers an available system that remaps how you experience sound itself by automatically adjusting volume and timbre balance to changing ambient noise levels, and that is deep, layered and perfectly tuned by engineers who want you to hear the truth about how good life can sound in your A5.

14
speakers
A5 Coupe

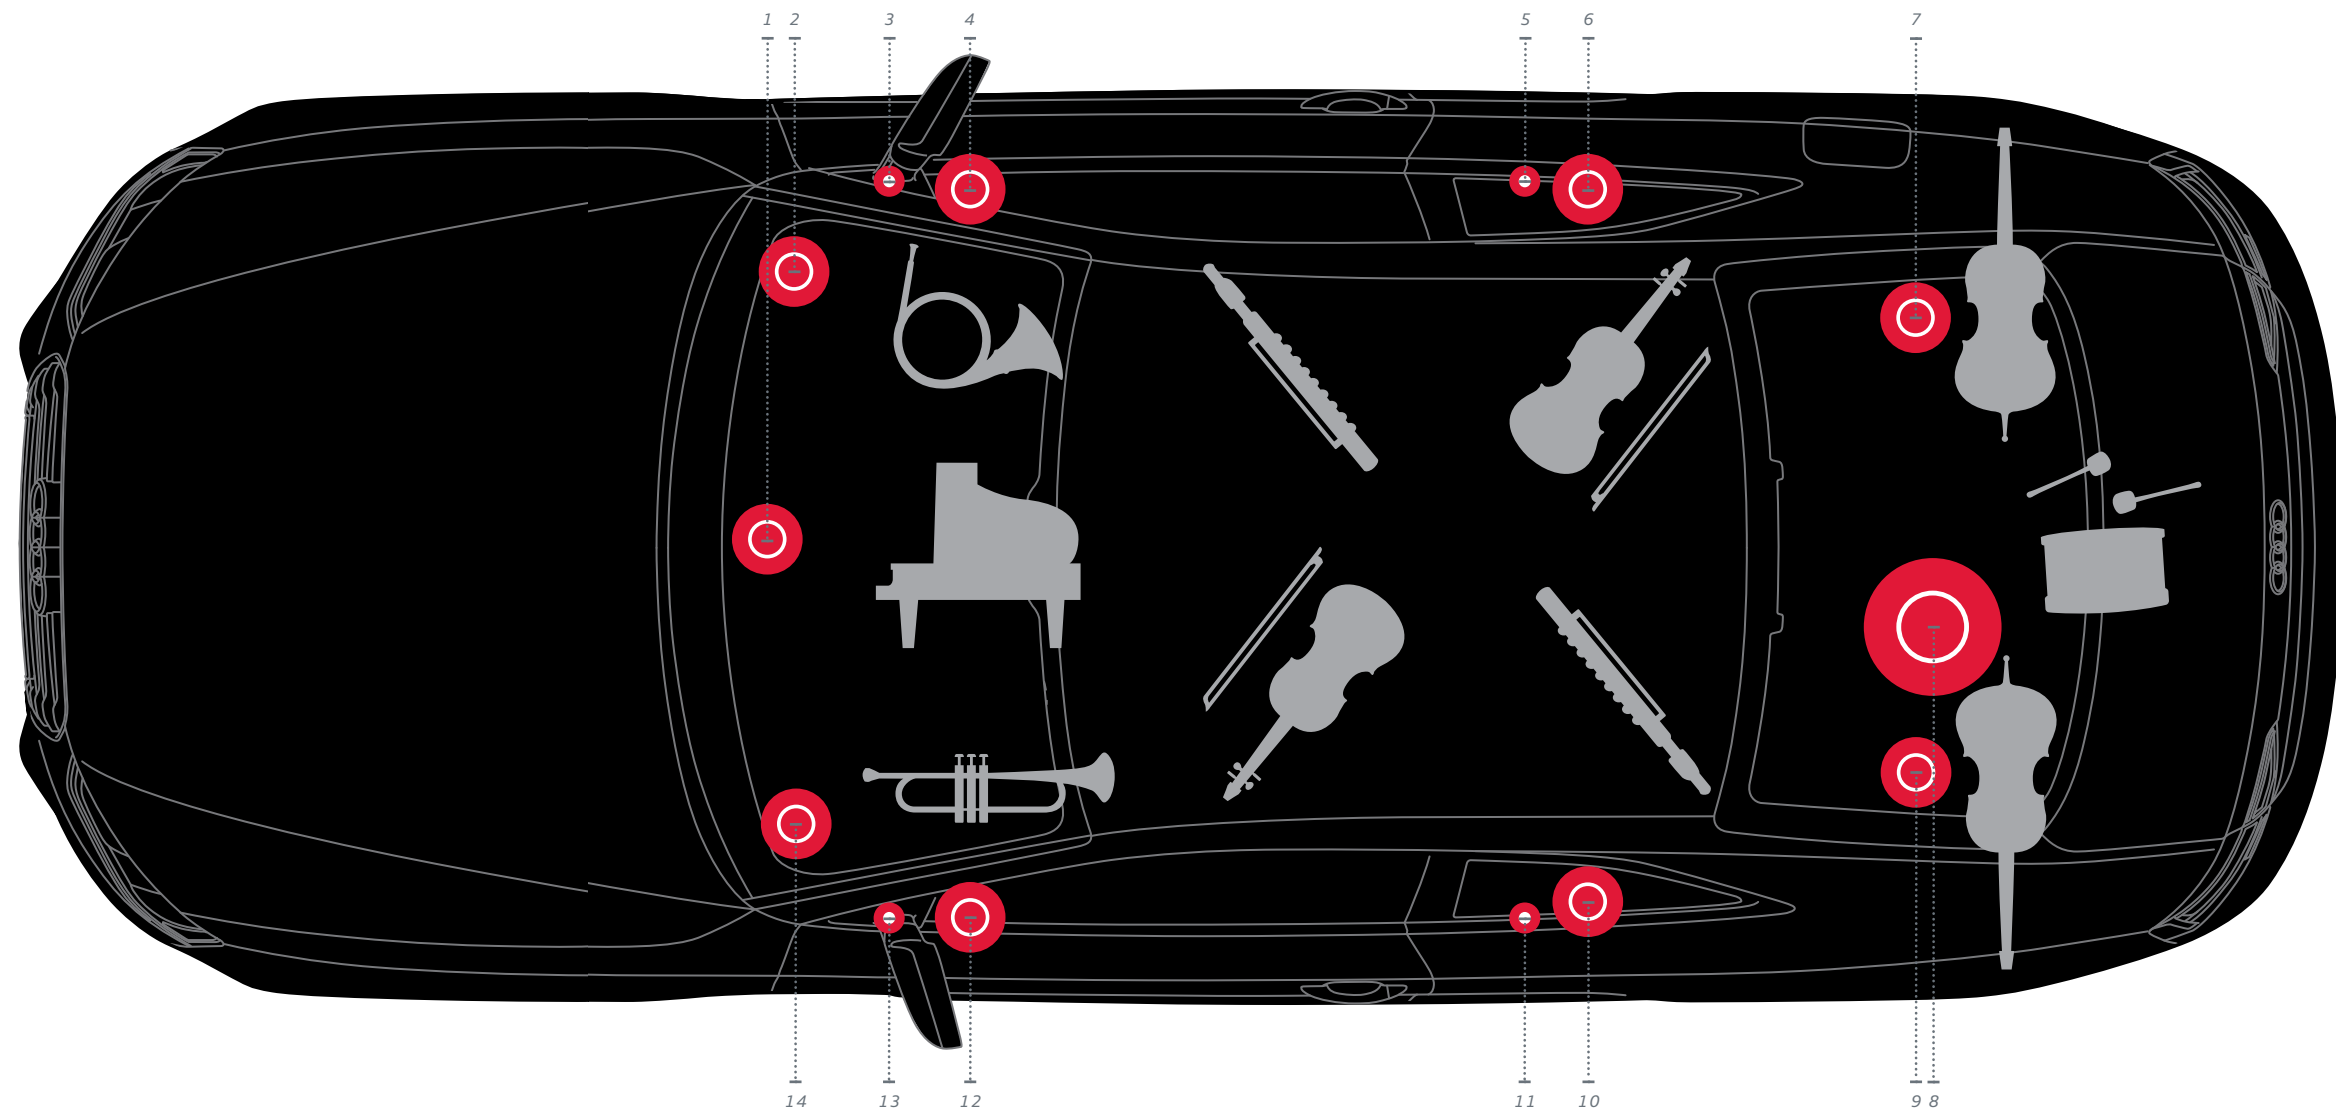

12
speakers
A5 Cabriolet

.22 - Concert Hall Effect

The human ear can detect the direction that sound is coming from only when it is high-frequency, so the cabin speakers are evenly balanced with high- and mid-range speakers. Since the ear cannot detect the direction of low-frequency or bass notes, a single subwoofer complements the sound throughout the cabin, giving you the concert hall experience anywhere your drive might take you.

.23 – LED Taillight Technology

– fig. 03

Sleek and stylish, these rear light-emitting diodes are brighter and longer-lasting than conventional bulbs and illuminate faster than traditional brake lights, which can help give the driver behind you more time to respond.

Make your dream come truer.

The Audi A5 has a big brother called S, and since the A5 is already on the varsity team, this is like making the state championships. With more power than you would expect, the Audi S5 features a supercharged 3.0-liter Audi TFSI® engine that produces 333 hp and 325 lb-ft of torque. The S5 brings a little more to an already stunning redesign, and you'll know it as soon as you engage the throttle—you'll experience the heart of Audi Sport® performance cars. The S5 tuned sport suspension helps exploit already dynamic performance, and responsive brakes help make every commute an exhilarating experience. It's the car you've dreamt about, but now, it *really* keeps you up at night.

S5

- ENGINE // 3.0-liter supercharged TFSI® V6 engine developing 333 hp and 325 lb-ft of torque

- DRIVETRAIN // Audi quattro® all-wheel drive, available sports differential, six-speed manual transmission or an available seven-speed Audi S tronic® dual-clutch transmission

- CHASSIS // S5 tuned sport suspension, available Audi drive select and dynamic steering

- BRAKES // 13.6" ventilated front disc brakes with S5 logo, 13.0" ventilated rear disc brakes

- PERFORMANCE // Top track speed of 155 mph,¹ acceleration from 0 to 60 in 4.9 seconds (Coupe) and 5.3 seconds (Cabriolet)

² Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.

¹ Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. ² Audi MMI Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi MMI Navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. ³ See the Audi connect™ page for important information about Audi connect™.

We've given style more style.

Think of it like this—we've put the S in style. The Audi S line® package available on the Audi A5 Prestige is more than just taking an already impressive vehicle and transforming it visually to look like no other car on the road, but that's mostly because it's just more of everything. With 19" 5-segment-spoke design alloy wheels, S line front and rear fascias, and rocker panels that were designed to give the A5 S line a more vigorous look, we've added a bit of an edge to an already stylish statement. Available for both the A5 Coupe and Cabriolet, you'll need to get used to the attention, no matter which A5 you drive. Inside, Brushed Aluminum decorative inlays pepper the center console, doors and instrument panel, and they just might match the gleam in your eye when you see them. A flat-bottomed three-spoke multifunction steering wheel and S line upgraded sport front seats with perforated Alcantara®/leather seating surfaces enhance the prestige of this premium aesthetic, and athletic, package.

Accessories

Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your A5 in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads turn as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same visionaries

who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you'd expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle Limited Warranty or the accessory's 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.¹

Compact Cargo Carrier²

A trim, aerodynamic design that offers a generous 16.95-cu-ft capacity. Size: 81" long, 30" wide, 15" high.

Ski and Snowboard Racks²

Push-button, keyed locks open and close easily. Rubber-cushioned aluminum bars hold securely. Standard attachment holds up to four skis or two snowboards. Deluxe attachment holds up to six skis or four snowboards.

A5 All-weather Floor Mats

Deep-ribbed, channeled design helps protect the floor and carpeting from water, mud, sand and snow. Rubber mats come in black and feature the A5 logo. Available in sets of two for front or rear.

19" Cortada Wheels—Gloss Black

Experience the high-performance beauty of this eye-catching design. The hollow-spoke feature results in a lightweight wheel that allows for more precise handling. The 5-spoke design features a high-gloss finish in black.

19" Candelas Wheels

An impressive, clean, drop-center, deep-dish design makes this 15-spoke wheel the perfect complement to the A5.

Valve Stem Covers

These handsome covers are made of polished stainless steel with a composite center cap. Emblazoned with the iconic Audi rings.

Rear Deck Spoiler (A5 Coupe only)

This sleek, aerodynamic appointment augments the already stylish A5 rear view.

S5 All-weather Floor Mats

Deep-ribbed, channeled design helps protect the floor and carpeting from water, mud, sand and snow. Rubber mats come in black and feature the S5 logo. Available in sets of two for front or rear.

S5 Alu-Optic Trim Package

For the Audi S5 Cabriolet, the package includes two red/stainless steel "Supercharged" fender badges, plus Alu-Optic stone guards that match the side mirrors and mount between the wheel wells. Coupe package also features Alu-Optic stone guards.

Audi Genuine Alloy Wheels

Strike the perfect balance between breathtaking design and awe-inspiring performance with Audi Genuine Alloy Wheels. Audi experts have meticulously designed these wheels especially for each Audi model. They're engineered to the highest standards and endure rigorous testing to help ensure long-term quality. Experience eye-catching style that is yours and yours alone. Nothing enhances the bold, dynamic look of your Audi vehicle faster.

Audi TravelSpace Transport Accessories

You go almost everywhere. Give your Audi the proper invitation to be part of your adventures. Never leave the necessary gear behind. Bring it with Audi TravelSpace Transport Accessories. The list includes bike racks, ski racks, a variety of watersports equipment carriers and various sizes of cargo carriers. Wherever you go, make sure almost everything fits with a variety of intelligent and innovative solutions. Accessories designed for your life—the passionate, active part.

Audi Genuine Electronics Accessories

The illuminating technology that graces each Audi vehicle provides the inspiration for Audi Genuine Electronics Accessories. Similarly, all of these accessories are impressively advanced and inspiring. Our audio options let you enhance your listening pleasure. Other accessory options help promote safer, more convenient travel. All are designed and tested to help ensure compatibility with the vehicle's electrical systems, allowing you to enjoy every aspect of Audi technology with almost all your senses. Demand the best and drive with added confidence.

Audi Guard Comfort and Protection Accessories

Protect what you love. Audi Guard Comfort and Protection Accessories offer functional, practical items that help keep your Audi in pristine condition. Choose from such useful items as trunk liners that help make clean-up quick and easy, or an easy-to-use storage cover that helps shield the vehicle. Use them all to help reduce wear and tear and keep the vehicle looking like new—inside and out. All are engineered to stringent Audi standards, so you can be assured of their quality and durability.

Audi Guard Car Care Products

Audi vehicles deserve the very best, and this is it: The only car care line specifically designed for Audi. Audi Guard Car Care Products provide gentle cleansing formulas and special tools to help give all interior and exterior surfaces the finest in cleaning and protection. Our shampoos and waxes undergo testing for cleaning performance, change in luster and material compatibility. For the ultimate in shine and sparkle, trust Audi Guard. Pristine, perfect.

¹ See dealer for details. ² All roof-rack system attachments require the base carrier bars. All attachments sold separately.
