INFINITI.

Inspired Performance®

FROM IMPULSE

Act on the moment. Anticipate every opportunity. Apply power and intelligence in equal measure and reveal excitement that exceeds the reach of either alone. Experience responsiveness that leaves you feeling more alive.

INFINITI DIRECT RESPONSE HYBRID^{®1} doesn't require a choice between efficiency and exhilaration. It achieves up to 34 miles per gallon², while also delivering 360 horsepower with heart-pounding immediacy.

INTELLIGENT ALL-WHEEL DRIVE¹ infinitely adjusts for better traction when you need it and more dynamic handling when you don't.

True luxury places your best interests first at all times, even in a world full of unknowns. In an Infiniti Q70, ground-breaking technologies surround you continually, actively seeking out potential risks, and helping to keep you safe.

INTELLIGENT CRUISE CONTROL^{1,3} automatically slows you down when traffic in front of you slows down. When the way is clear, it accelerates back to your desired speed. Less effort, more ease.

LANE DEPARTURE PREVENTION^{1,4} watches road markings with a camera and can subtly apply brakes to help keep your vehicle from unintentionally drifting from your lane. Traffic may surround you, but so will confidence.

BLIND SPOT INTERVENTION^{1,5} helps increase your sense of well-being by using radar to watch carefully for danger you may not see. If it detects a vehicle in the blind spot area, it warns you, and can intervene to help you avoid a collision.

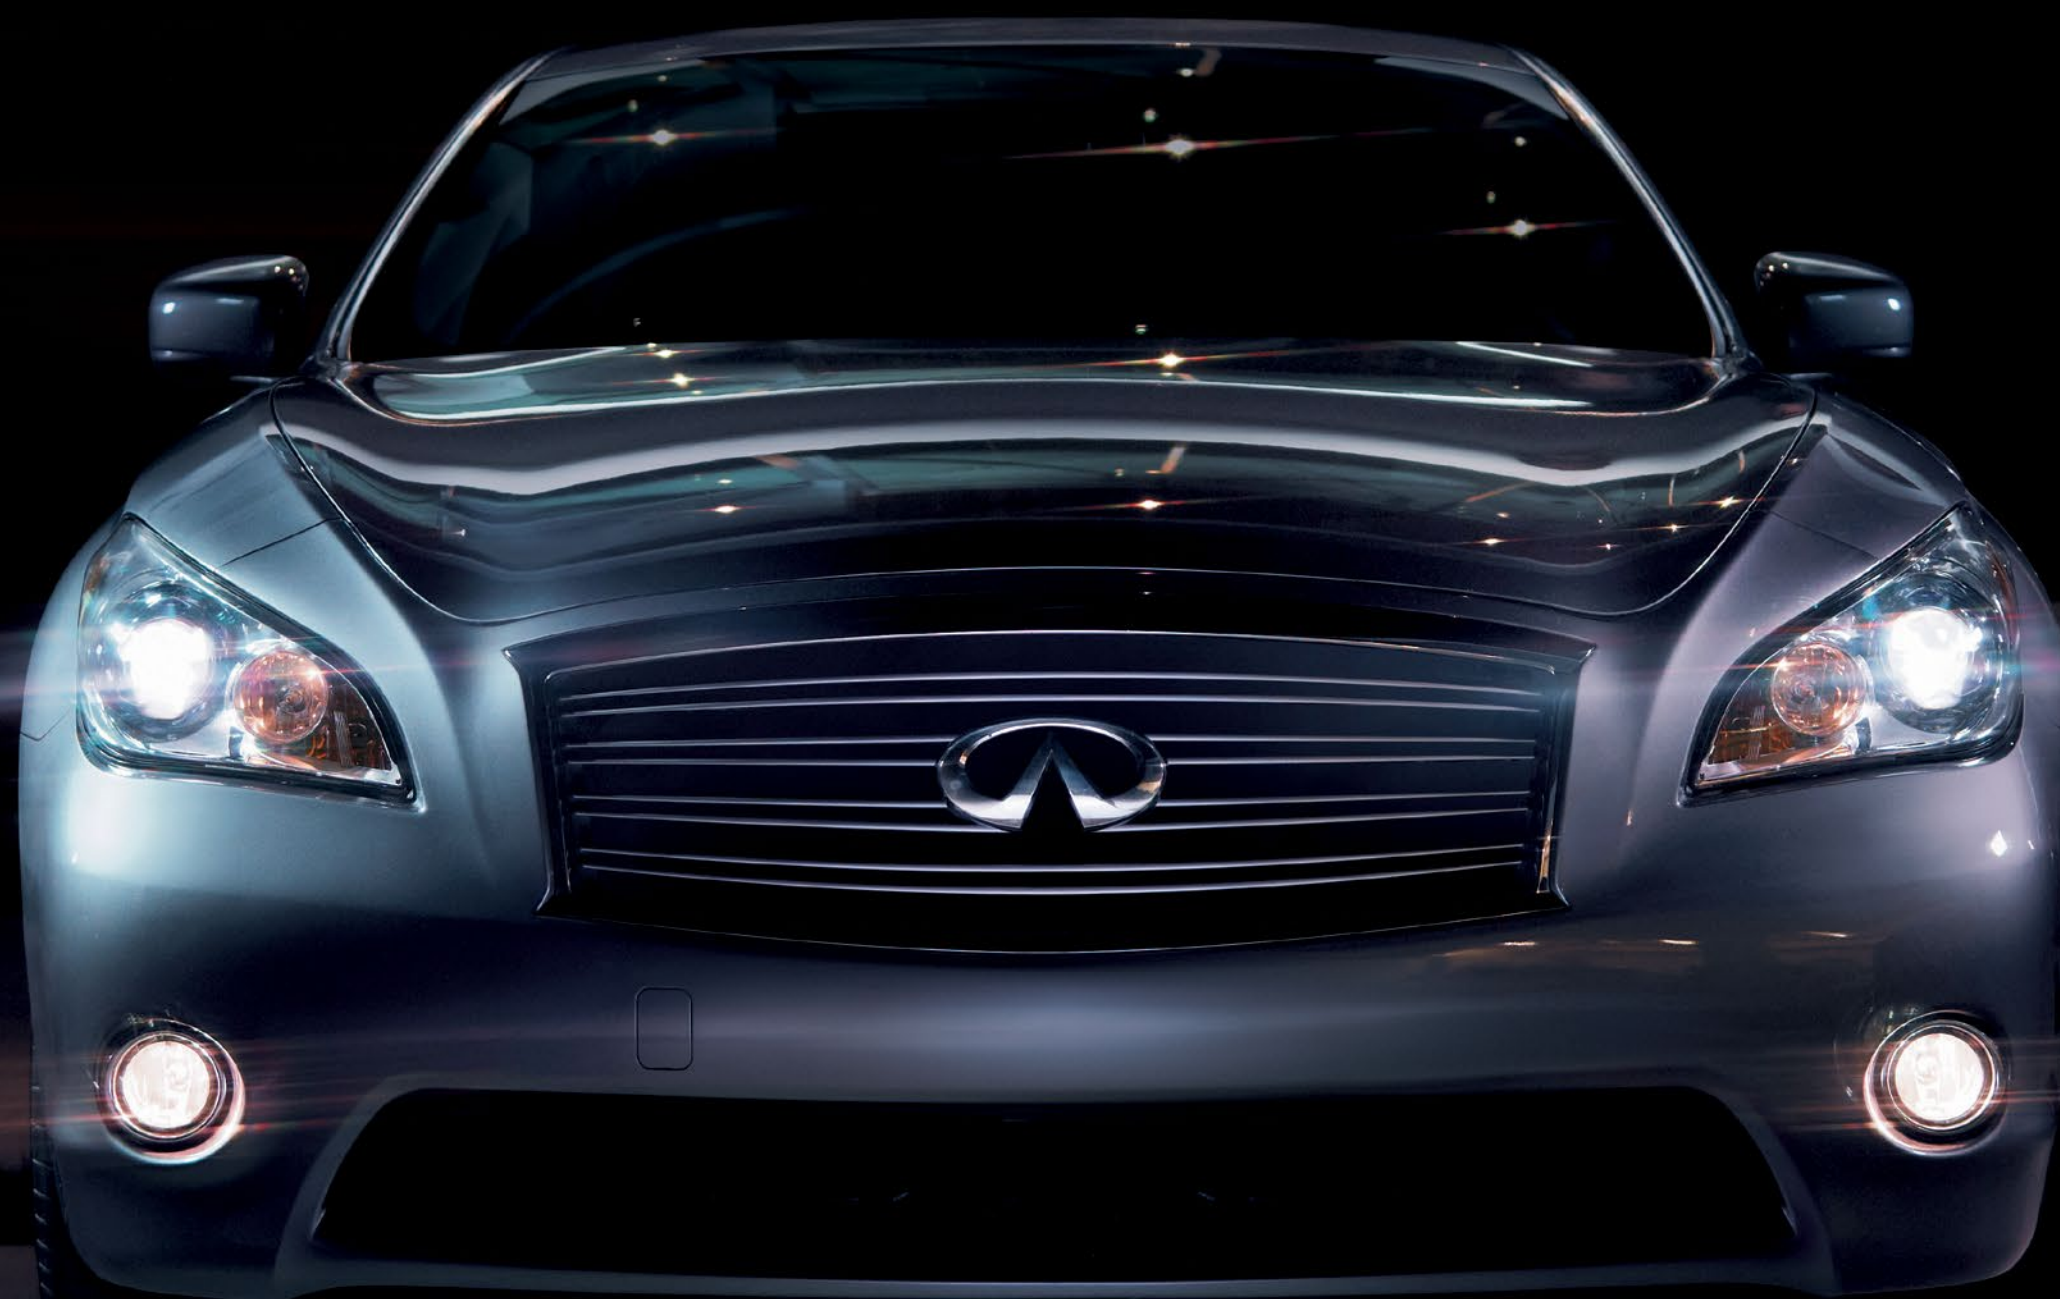

FROM MOTION

SPORT-TUNED SUSPENSION¹ features springs and shocks tuned to provide sharper, more responsive handling. The difference is the excitement that will linger after every drive.

ACCELERATION SWELL transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and the feeling of acceleration is shaped to increase the faster you go.

FROM MASTERY

Design becomes great when it transcends shape and captures pure emotion. The beauty brought to life in the Infiniti Q70 isn't about adherence to existing concepts of form and function. It's about the ability of its creator to imbue an object with the power to express a singular vision in every curve and evoke a deeply personal response from all those who take it in.

ARTFUL CRAFTSMANSHIP strikes a balance of fluidity and musculature that gives the Infiniti Q70 a presence that is impossible to ignore. Its stance and double-wave hood speak to the power that surges beneath, while its flowing, naturally inspired lines tell of the pleasure it's designed for.

WELCOME LIGHTING celebrates your presence and elegantly draws you in to the driving experience. As you approach, a sequence of exterior then interior lights rewards your presence. Walk away, and the sequence occurs in reverse.

In the richness you touch. In the space that surrounds you. In the sounds that invigorate. In the technologies that fill it. This is where you find true reward. Every time, you'll find the connection between you and the experience of driving intensified. Every time, your Infiniti Q70 will leave you moved.

BOSE® STUDIO SURROUND®¹ envelops you, creating depth and ambiance for a wider, more immersive sound. 16 powerful speakers deliver music throughout the cabin with the soothing richness and thrilling intimacy of Bose® 5.1 digital sound.

FOREST AIR® SYSTEM¹ The natural rejuvenation of a cool, soothing breeze is brought into your personal space as you drive. Air is circulated with a gentle ebb and flow.

E-PROCESS

AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

NATURAL REJUVENATION Inspired by the way natural settings simultaneously calm and invigorate your senses, we created the one-of-a-kind Forest Air® climate control system¹. As it circulates air around the cabin, it emulates the calming sensation of a natural breeze by varying the strength of the airflow. It intermittently cycles from a gentle 2 m/s to a more robust 5 m/s in an ebb and flow so smooth and natural that you only notice the satisfaction it provides.

2 M/S  5 M/S
GENTLE EBB AND FLOW

FINER FABRICS The seat belt is one of the few surfaces you continually touch, so we found a variable herringbone weave for the webbing that is softer than standard fabrics. Not only is it more pleasing to the touch, but being more compliant, it allowed us to reduce the friction of the seat belt mechanisms. The seat belt is more comfortable to wear, easier to pull out and even less likely to snag the thread of your finest fabrics. No element is too small.

ABUNDANT SPACE The interior of the Q70 was designed to emphasize both the rewards of spaciousness and the feeling of space. It offers excellent head and hip room for all passengers. Interior elements like the roof and windshield pillars are shaped to give a more open feeling. Each seat is rewardingly supportive and even taller rear passengers will have comfortable legroom. What's more, a wide trunk opening gives you easy access to a spacious luggage compartment.

MATCHLESS MATERIALS The craftsmanship in an Infiniti Q70 is not limited to the exquisite ergonomics and trim. Your fingertips will seem to recognize an instinctively rewarding feel in the armrest and other surfaces. We took one-and-a-half years, surveying 360 people all over the world to quantify the most pleasing tactile feel. With tension and texture that match the depth and spacing of the ridges in your fingerprint, we've imbued the surfaces you'll engage most with the perfect touch.

POWER

Award-winning build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is in the feeling unleashed as you drive.

360
HP

34
MPG²

3.5-LITER V6 ENGINE WITH INFINITI DIRECT RESPONSE HYBRID^{®1}
The Infiniti Q70 Hybrid is the vehicle that redefined hybrid power. Combining a powerful V6 engine with a 50 kW electric motor gives the system a total 360 horsepower. But unlike many hybrids, it transitions from all-electric mode to full-power hybrid mode with thrilling intensity and organic responsiveness. All while achieving a surprising 34 mpg²

330
HP

26
MPG²

3.7-LITER V6 ENGINE¹ Its robust design, exceptional power-to-weight ratio, advanced technology and fuel efficiency have won it acclaim from critics and fans alike. Benefitting from Variable Valve Event and Lift (VVEL[®]) technology, it adjusts on the fly to make the most of every breath and every bit of fuel, resulting in a stirring 330 horsepower while achieving up to 26 mpg²

420
HP

24
MPG²

5.6-LITER VVEL[®] V8 WITH DIRECT INJECTION¹ The most formidable engine Infiniti has ever built, this powerful and responsive 5.6-liter V8 delivers a thrilling performance. It produces a stirring 420 horsepower and boasts 417 lb-ft of torque to produce a torrent of power that is delivered with the polish and precision to suit virtually any driving scenario you might encounter or excitement you might desire.

PERFORM

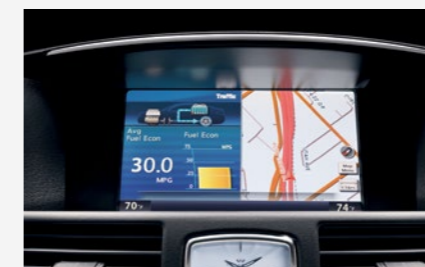

Underneath its muscular physique and spacious luxury lies the foundation of the thrilling performance of Infiniti Direct Response engineering.

49
REAR

51
FRONT⁶

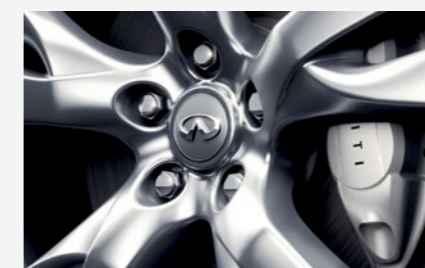

INNATELY RESPONSIVE BALANCE The engineering philosophy behind Infiniti performance coupes, the Front-Midship Platform, also underlies the design of the spacious Infiniti Q70. Placing the engine's center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you'll feel as quicker turn-in and even balance as you accelerate out of a corner. Experience precision and engagement you might expect from a sports car.

EFFICIENT INVIGORATION No hybrid design is quite like it, and none can match its emotional intensity. The 50 kW electric motor and cutting-edge lithium ion batteries of the Infiniti Direct Response Hybrid^{®1} are powerful enough to allow you to maintain cruising speed in all-electric mode. When not needed, the 3.5-liter V6 gasoline engine is turned off and completely disconnected, maximizing mechanical efficiency. And yet, it responds to your call for power with a stirring intensity.

CONTROL WITHOUT COMPROMISE When conditions are ideal, Intelligent All-Wheel Drive¹ sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal. It helps keep you in control while satisfying your desire for exciting driving.

MORE RESPONSIVE BRAKING With ventilated discs and aluminum 4-piston opposed front calipers and 2-piston opposed rear calipers, the available Sport Brakes¹ provide great stopping force from both sides of the rotor at the same time for better bite, more friction and direct feel.

THE SOUND OF PERFORMANCE A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the Q70 shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

ENHANCED AGILITY The unique double piston design of the shock absorbers increases the damping force relative to the piston speed during cornering for effective control of body roll. It lowers the damping force in relation to the piston speed so as to isolate tiny undulations and large force inputs. In this way, the double piston shock absorbers achieve nimble handling and superior ride comfort on any road.

LIGHT ON ITS FEET These stunning 20-inch alloy wheels¹ heighten the looks of the Q70 without leaving the performance behind. Lightweight materials allow us to create a bold, organic design, while finely tuning the suspension for taut response. You'll enjoy both the thrill of exciting styling and of nimble handling.

ASSIST/ENTERTAIN

The advanced technologies of Infiniti InSuite™ simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

16 x

AUDITORY INDULGENCE Each of the 16 speakers of the Bose® Studio Surround®¹ sound system is custom-tuned for the interior of the Infiniti Q70. Each, including those mounted in the shoulders of the front seats, reproduces sound with legendary Bose® signal processing to create rich and realistic 5.1 surround sound imaging. The system also allows for a wide variety of media sources, including satellite radio, your personal iPod® and wireless streaming with a compatible Bluetooth®-enabled device.

CRAFTING TRANQUILITY Active Noise Control ensures that the cabin of the Infiniti Q70 offers better solace from the outside world. Intelligent technology uses a microphone in the ceiling to identify undesirable low-frequency engine sounds and neutralizes them with sound waves of the opposite phase. The result is a quieter and more peaceful driving experience, which still preserves the more invigorating sounds of engine performance.

A SMARTER WAY TO SEE The Adaptive Front lighting System¹ on the Q70 lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input to help the driver see upcoming vehicles and pedestrians, and to help you reach your destination safely.

FULLY INTEGRATED SERVICE Infiniti Connection™^{1,7} is a complete package of protection and convenience services seamlessly integrated with your vehicle and your life. It offers a broad range of helpful assistance like Automatic Crash Notification (ACN), which alerts authorities in case of a collision and Max Speed Alert. These services can be accessed through a variety of methods, including the Infiniti Connection™ app for compatible smartphones and the vehicle's navigation system.

SECURING YOUR SPACE Distance Control Assist^{1,8} employs a sensor to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

EASE IN TRAFFIC Intelligent Cruise Control (Full-Speed Range)^{1,9} allows you to choose your desired speed, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up, it re-accelerates your vehicle to your preset speed. This visionary innovation and the personalized convenience it offers is available with a simple touch of a button.

EXTEND YOUR AWARENESS Engage reverse and the RearView Monitor¹⁰ displays the area directly behind. Colored guidelines help give you an accurate sense of how close you are to objects behind, and they adjust as you turn, to show your path. Also, the Rear Sonar System¹ emits a beeping tone and displays an icon on the RearView Monitor display when an obstacle appears near the rear bumper.

PROTECTION

The Infiniti Safety Shield® concept—our comprehensive approach to safety—layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

1350 MPa
ULTRA-HIGH TENSILE
STRENGTH STEEL

590 MPa
CONVENTIONAL
STEEL

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle's resiliency, it allows us to make the vehicle lighter overall.

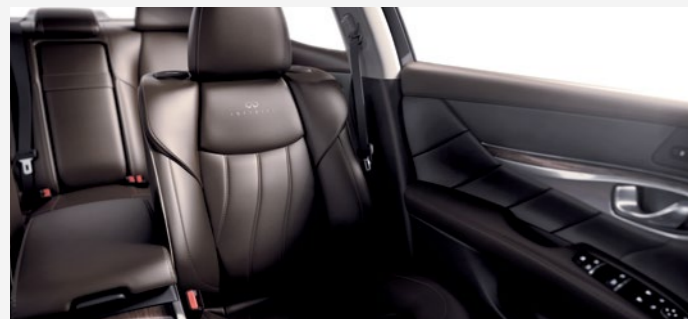

SENSES WHERE YOU CAN'T SEE The Blind Spot Intervention® System^{1,5} uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply opposite side brakes to help you guide your vehicle back towards the center of your current driving lane.

HELPING YOU STAY IN CONTROL Comparing actual vehicle cornering performance to the driver's input, Vehicle Dynamic Control¹¹ adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Traction Control System senses wheelspin and automatically helps give you a surer foothold.

MAINTAINING YOUR LANE The Lane Departure Prevention System^{1,4} uses a camera to watch for signs that your vehicle may be unintentionally departing the traveling lane, and audibly warns you if it detects them. Then, if the drift continues, the system lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It's designed to assist, not override.

ALWAYS LOOKING FOR DANGER Intelligent Brake Assist^{1,12} with Forward Collision Warning^{1,13} employs a sensor to continuously monitor and analyze your closing speed to the vehicle ahead of you, helping detect an imminent collision. It provides a two-stage warning to alert the driver as the vehicle moves towards impact and—if needed—can automatically engage the brakes to help reduce the impact speed.

THE SUPPORT YOU NEED In certain rear-end collisions, the Front-seat Active Head Restraints found on the Q70 can move forward to help cushion the head to help assist in reducing whiplash-type injuries.

PREPARED TO PROTECT Under certain braking conditions or when the Intelligent Brake Assist^{1,12} system is activated without brake pedal input, the Front-seat Pre-Crash Seat Belts¹ automatically tighten the front seat belts—helping restrain you and helping to maximize the effectiveness of the other occupant protection devices such as air bags.

ENHANCED PROTECTION Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System¹⁴ that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.

WHEELS

18 X 8.0-INCH ALUMINUM-ALLOY WHEELS

20 X 9.0-INCH ALUMINUM-ALLOY WHEELS

Infiniti has taken care to ensure that the color swatches presented here are the closest possible representations of actual vehicle colors. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colors and availability at your local Infiniti retailer.

GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

ACCESSORIES SHOWN Aerodynamic kit (front fascia, rear decklid spoiler, side sills), 20-inch, split 5-spoke aluminum-alloy wheels, midnight black grille.

18-INCH ALLOY WHEELS Wherever you go, there'll be no question to your sense of style and love of sporty design. These eye-catching wheels utilize lightweight aluminum alloy for sharp and precise handling.

MOONROOF WIND DEFLECTOR Shaped to complement the lines of the Q70 and made of tough acrylic, this aerodynamic deflector helps reduce wind turbulence and noise.

INTERIOR AMBIENT LIGHTING The warm and engaging glow welcomes you as you get settled. It adds ambiance to the interior and enhances the interior's modern appeal.

MIDNIGHT BLACK GRILLE Featuring satin black horizontal grille slats, this unforgettable design touch accentuates the vehicle's existing performance, style and character.
(Not available with Sport Package.)

SPLASH GUARDS Contoured to match wheel openings and color-matched to exterior paint, they add style while reducing dirt spray on lower body panels and helping prevent nicks and scratches caused by road debris.

TRUNK NET[®] Durable and unobtrusive, it conveniently helps you organize your possessions in the trunk, and helps keep them safely in place.

This brochure is intended for general descriptive and informational purposes only. It is subject to change and does not constitute an offer, representation or warranty (express or implied) by Nissan North America, Inc. Interested parties should confirm the accuracy of any information in this brochure as it relates to a vehicle directly with Nissan North America, Inc., before relying on it to make a purchase decision. Nissan North America, Inc., reserves the right to make changes, at any time, without prior notice, in prices, colors, materials, equipment, specifications, and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, actual vehicle, materials and specifications may vary from this brochure. Some vehicles shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options and accessories may differ in Hawaii, U.S. territories and other countries. For additional information on availability, options or accessories, see your Infiniti retailer or contact Nissan North America, Inc.

1 Available on select models. **2** 2014 EPA Fuel Economy Estimates for highway driving. Actual mileage may vary with driving conditions. Use for comparison only. **3** Intelligent Cruise Control is not a collision avoidance or warning device. For highway use only and not intended for congested areas or city driving. Will not brake automatically to a stop. Failure to apply the brakes could result in an accident. **4** The Lane Departure Warning/Lane Departure Prevention Systems operate only when the lane markings are clearly visible on the road. Speed limitations apply. They will not prevent loss of control. See your Owner's Manual for more details. **5** Blind Spot Warning/Blind Spot Intervention Systems are not substitutes for proper lane change procedures. The systems will not prevent contact with other vehicles or accidents. They may not detect every vehicle or object around you. **6** Applies to Infiniti Q70 Hybrid. **7** Driving is serious business. Only use Infiniti Connection™ and Infiniti Connection Plus services when safe to do so. Services, including automatic crash notification and SOS, require an active subscription, and are dependent upon the telematics device being in an operative condition, its ability to connect to a wireless network, compatible wireless network availability, navigation map data, and GPS satellite signal receptions, the absence of which can limit or prevent the ability to reach Infiniti Connection Customer Care or receive support. Services require compatible 2G GSM/GPRS cellular network provided by AT&T. 2G cellular network not available in all areas and/or available at all times. Cellular technology is evolving, and changes to cellular networks provided by independent companies are not within Infiniti's control. AT&T has announced that on December 31, 2016, AT&T will terminate 2G network availability. Like other devices that rely on 2G network coverage, once the 2G network is terminated, Infiniti Connection and Infiniti Connection Plus services will not function unless equipment replacements, upgrades, or alternative 2G network coverage are available at that time, which Infiniti cannot guarantee. Infiniti is not responsible for associated costs that may be required for continued operation due to cellular network termination (including equipment upgrades, if available, or roaming charges on alternative networks). Certain vehicle services, including Google® compatible services, provided by independent companies are not within Infiniti's control and are subject to change without notice or liability to Infiniti and its affiliates and agents. Complimentary 12 month subscription begins on your date of purchase. Subsequently, your credit card (if on file) will be charged at the then current subscription rate and your service will continue for 1 year periods under the terms of your Subscription Agreement, or until 2G coverage is terminated on December 31, 2016 (if equipment upgrades or roaming charges are not available by that date). Standard text rates and /or data usage may apply. Terms and conditions of Subscription Agreement apply. See InfinitiUSA.com for more information. **8** Distance Control Assist helps maintain a distance to the vehicle in front of you under certain conditions. Not a collision avoidance system. Failure to apply the brakes could result in an accident. **9** Intelligent Cruise Control (Full-Speed Range) is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. **10** Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. **11** VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. **12** IBA is not a collision avoidance system. It may not provide warning or braking in certain conditions. Never rely solely on IBA. **13** FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. Always drive safely. **14** Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details. **15** Cargo and load capacity limited by weight and distribution. Always secure all cargo. **16** Driving is serious business and requires your full attention. Do not operate any devices connected to the auxiliary audio input jack or USB connection port while driving. iPod is a registered trademark of Apple Inc. All rights reserved. iPod not included. **17** Required SiriusXM Satellite Radio, NavTraffic and NavWeather subscriptions sold separately and are continuous until you call SiriusXM to cancel. Installation costs, one-time activation fee, other fees and taxes will apply. NavTraffic available in select markets. Satellite Radio U.S. service and NavWeather service available only to those 18 or older in the 48 contiguous states and D.C. Fees and programming subject to change. Subscriptions governed by Customer Agreement available at siriusxm.com. ©2013 Sirius XM Radio Inc. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. **18** Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone owner's manual for details. The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Infiniti is under license. **19** Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. **20** Zagat Survey® is a registered trademark of Zagat Survey, LLC Ltd. **21** Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. **22** The Advanced Climate Control System with Plasmacluster air purifier helps scrub the air in the vehicle's interior. The system senses exterior odors, suppresses unpleasant interior odors, stops the inflow of external odors and helps keep the cabin smelling fresh, but does not always eliminate odors. **23** May require additional options or option packages.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1™, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Infiniti is drawn to Formula 1™ racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led to four Formula 1™ Constructors' World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1™ and Infiniti vehicles. This exchange of both technology and ideas now includes the appointment of 4-time Formula 1™ Drivers' World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already aided in the development of the all-new Infiniti Q50—harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the genius and unrivaled passion that defines his greatness.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti's flagship line has now grown to include sedans, coupes, convertibles and crossovers, all available in 49 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.
